UNIVERSITY OF ENGINEERING & TECHNOLOGY LAHORE

(Tel. + 92 (42) 99029260)

To the Respected School Administration and Educational Partners,

Subject: Official Academic Endorsement for the "WonderWhyPK" STEM Outreach Initiative

As a member of the **Computer Science** faculty at **University of Engineering and Technology, Lahore**, I am writing to formally express my strong academic endorsement of the **WonderWhyPk** educational initiative and its founding team: **Ahmad Abdullah** (Founder & Executive Director), **Abdul-Wali** (Co-Founder & Head of Operations) and **Ayyan Javed** (Co-Founder & Head of Curriculum).

In higher education, we frequently observe a significant gap in the analytical and algorithmic reasoning skills of incoming students. This gap often stems from a lack of early exposure to competitive, logic-based problem-solving at the secondary school level. **WonderWhyPK** addresses this critical pedagogical deficit.

By taking the initiative to democratize access to the preparatory frameworks for the **International Mathematical Olympiad (IMO)** and the **International Olympiad in Informatics (IOI)**, this student-led organization is performing a vital service. Their curriculum focuses on the exact competencies, advanced logical deduction, algorithmic thinking, and foundational robotics, that are required for success in top-tier university research and global STEM industries.

Furthermore, their dedication to guiding students from local schools toward the national pipelines, such as the **STEM Careers Programme (NSTC)** and the **Pakistan Olympiad in Informatics (POI)**, demonstrates exceptional civic leadership and intellectual maturity.

I have full confidence in the academic integrity of the **WonderWhyPK** team and the value of their interactive workshops. I strongly encourage school principals and administrators to welcome this team and facilitate their 60-minute sessions. Providing your students with this exposure is a necessary step toward elevating the standard of scientific excellence in our grassroots educational system.

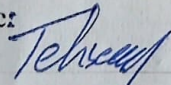

Should you require any further academic verification regarding the importance of these international Olympiad standards, please feel free to contact my office.

Sincerely,

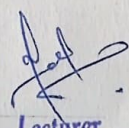

Syed Tehseen Ul Hasan Shah
